

Meritor Parts

Meritor Parts - The Meritor Company is a leading international supplier built upon 100 years of custom of service and quality. Meritor specializes in integrated systems with several modules and components to the original machine makers and aftermarket equipment in the industrial and transportation trades.

Meritor prides itself in the company's unique energy and believes that this energy contributes to their competitive advantage within the international operations. The company values their customers and wishes to guarantee their success while anticipating their different requirements. Meritor begins with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing more than eleven thousand two hundred individuals, Meritor encourages innovation and collaboration among a team of experienced professionals.

Meritor strongly believes in only employing future focused staff. These top-caliber people can quickly adapt to changing surroundings and freely demonstrate the level of commitment and performance necessary in order to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers their staff various chances for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises axles, drivelines, suspension and braking systems intended for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is also responsible for supporting the needs of their global engineering workers.

The Quality team at Meritor is a customer-focused and dynamic group that is committed to ensuring optimum development at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 countries.

The supplier development network is specifically located to be able to support new business development. Regional teams are supported by international quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in each and every part of the company. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise comprised of transactional Green Belts who apply Six Sigma tools to business methods and implement lean methods.
